

Put high-performance hybrid meetings front and center.

Crestron Videobar 70

Packed with everything needed to create hybrid meeting equity in medium and large spaces, the Crestron Videobar 70 all-in-one collaboration bar delivers both room-filling audio and intelligent video technology in a single device — with Android™ OS for easy deployment.

- Creates premium meeting experiences in medium-to-large rooms
- Four high-resolution cameras with intelligent video capabilities
- Powerful audio array captures every word and sends sound throughout the space
- Easy to install with Android OS
- Quick to deploy with plug-and-play simplicity
- Supports up to three displays and an additional camera

Have room-filling audio

Stereo speakers fill the entire space with rich audio; 24 beamforming microphones reduce noise and pick up voices from the back of the room.

Get the full range of intelligent video

Four high-resolution cameras with group framing, speaker tracking, and picture-in-picture capabilities find the best possible view — even in large rooms.

Wide-angle camera
captures whole room

3 narrow FOV cameras.
capture speakers in high resolution

Go from 0 to 70 in seconds

Just set up and go. Power the device, connect to the network, plug in displays, and the room is ready. A single cable connects your touch panel for one-touch meeting join and control.

Get all you need. On the platform you want.

All-in-one collaboration bar. Tabletop touch screen control. Native Microsoft Teams® or Zoom Rooms® software experience. Powered by Android OS. A complete hybrid meeting system for more personal, effective, and intuitive video conferencing. Wherever and however you want.
